

Saturn's rings ring true

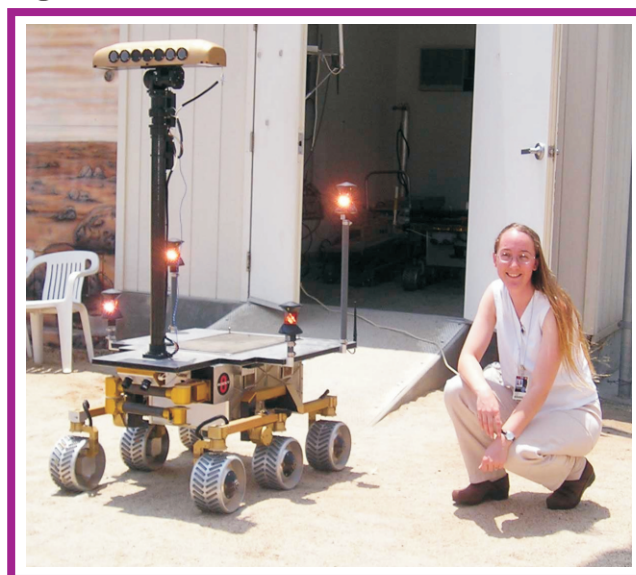

Dr. Lindsey Chambers

**Please Join Us to Hear
Lindsey Chambers, Ph.D.,
University of California - Santa Cruz
Monday April 12, 2010, 7-8 pm
Boehm Science Building Room 145**

Dr. Chambers is a planetary physicist who works directly with NASA on the exciting mission to Saturn. Her scientific work has taken some truly thrilling turns, like when the Cassini spacecraft was about to fly between two of Saturn's rings and...
...well, that's *her* tale to tell!

Dr. Chambers will share with us her research adventures in the big science ring of planetary exploration, as well as her life as a scientist.
Everyone is welcome!
