

All-Star Math

Directions: Select a batter from the American League lineup and attach his player card to home plate. Record his stats on the table below. Repeat this process until you have three American League and three National League players. After the initial table is completely filled in, complete the analysis charts below to find out which league's all-star starters had the best stats for the 2006 season.

| | | | | | | | |
|-----------------|------|----------|------|---------|---------|---------|-----------|
| American League | Name | Position | Hits | Singles | Doubles | Triples | Home Runs |
| Player 1 | | | | | | | |
| Player 2 | | | | | | | |
| Player 3 | | | | | | | |
| Total | | | | | | | |
| National League | | | | | | | |
| Player 1 | | | | | | | |
| Player 2 | | | | | | | |
| Player 3 | | | | | | | |
| Total | | | | | | | |

Analysis Charts:

Fill in the percentage of hits that were singles, doubles, triples, and home runs.

| | % of Singles | % of Doubles | % of Triples | % of Home Runs |
|----------|--------------|--------------|--------------|----------------|
| American | | | | |
| National | | | | |

Check either American or National for each category in the chart below:

| | American League | National League |
|--------------|-----------------|-----------------|
| Total | | |
| Hits | | |
| Singles | | |
| Doubles | | |
| Triples | | |
| Home Runs | | |
| % | | |
| Singles | | |
| Doubles | | |
| Triples | | |
| Home Runs | | |

Which is the winner?

American League _____

National League _____
