

XHTML Exercise

You are to create a main web page for a web site for a bookstore store. The web page must contain **at least** the following items:

1. An appropriate title (title element in the head section)
2. An appropriate heading (a heading on the web page, in the body section)
3. A brief paragraph explaining the nature of the web site (it will be a bookstore)
4. A list of “links” – they will be links in the future, for now just put the list on the page
 - a. Create account
 - b. Login
 - c. Browse Catalog
 - d. Search Catalog
 - e. Checkout
 - f. Check order status
 - g. Contact Us
 - h. Logout
5. Contact information that contains **your** name and Email address
6. A note indicating that this is for a school project and is not a real shopping cart/catalog web site

Reminder: add a link to this page from your index.html page (link the “Project” item in the unordered Assignments list).
