Grading Policy:

Your grade will be computed as follows:

Exams (2 or 3)	50%
Final.....	25%
Project	15%
Homework/Quizzes	10%

The University Scale will be used in determining letter grades. Plus/minus grading will be used. In order to receive a passing grade for the course, you must have a passing test average.

E-mail:

The best way to contact me is by e-mail (frye@kutztown.edu). When sending me e-mail, please indicate the course number in the subject line by putting it in brackets before your subject. For example, the following may be the subject: [CSC242] Help with assignment #2

Assignments:

All assignments are due at the due date and time; anything handed in after that date and time is considered late. Assignments may be photo-copied and retained in order to document examples of completed assignments for program accreditation. Include the following information at the top of ALL assignments: your name, the course (CSC242), semester and year, Dr. Frye and assignment number.

Exams:

There will be two or three exams and a comprehensive final exam. Exams must be taken when scheduled unless I have approved an alternative time PRIOR to the scheduled time. Missed exams will be handled on an individual basis and will require written documentation for the absence. University policy will be followed. **Make-up for a missed exam will occur the last week of classes for the semester. It is the student's responsibility to schedule a time for any make-up exams!**

Project:

There will be a major project assignment. It will be a client/server project that simulates a shopping cart type of web site. Any project turned in after the due date and time will be considered late. Late projects will be penalized 10% for each calendar day it is late. More information will be given on the project later in the semester.

Homework/Quizzes:

Homework will be assigned at the end of class. Homework will be collected at the beginning of class and **no** late homework will be accepted. There may be some announced or unannounced quizzes through-out the semester. There will be **no** make-up for missed quizzes. The two lowest homework/quiz grades will be dropped.

Attendance:

Regular class attendance and participation are expected and highly encouraged. Students are responsible for all material covered in class.

Academic Dishonesty:

All students should familiarize themselves with the [Computer Science Department Academic Integrity Policy](#). Any student copying work or giving work to another student will receive a zero for that assignment and will be referred to the department chairperson.

Classroom Etiquette:

Consideration for your classmates, instructor, and the class is expected. Please come to class on time and prepared to learn. Coming and going during class should only occur in unavoidable situations. **Cell phones, pagers, PDAs, etc should be neither seen nor heard. Turn them off before coming to class!**

Students with Disabilities or Special Needs:

Students with diagnosed disabilities or special needs that require accommodations for this course must first contact the Disability Services Office, located in the Office of Human Diversity at 215 Stratton Administration Building. Do this as soon as possible so that we may have a dialogue as to your needs and the recommended accommodations.

Note:

This syllabus is subject to change at the discretion of the instructor.
