

CALL FOR UNDERGRADUATE PAPERS IN PSYCHOLOGY

Modern Psychological Studies

What is MPS?

MPS is a journal devoted to publishing research by undergraduates in Psychology. We seek high quality manuscripts for publication. MPS will consider manuscripts in any area of psychology. Although we are primarily interested in results from experimental research, we are also interested in theoretical papers, literature reviews, and book reviews. We encourage all undergraduates who feel their paper is exceptionally written to submit for publication.

Why Submit a Paper?

You will gain invaluable experience collecting research and preparing a paper for the process of submission in a professional journal like MPS. Many Psychology undergraduates will attend graduate programs where involvement in such research activities is commonplace. You will be one step ahead of the rest when preparing your thesis or dissertation by having written a paper for publishing as an undergraduate.

Graduate schools place great emphasis on the ability of students to conduct research. Publishing in MPS not only shows the individual's interest in the science of psychology, but also makes a statement that the student is capable of doing high-quality, beneficial work for their program.

Submission Guidelines

1. Manuscripts must have an undergraduate as a primary/sole author. Works will be accepted by graduates if the work was completed as an undergraduate and no further work along the same lines has been completed at a graduate level.
2. Send original works only. Please do not send work that has been accepted for publication or been submitted elsewhere.
3. Manuscripts should follow strict APA format for article submission as found in the APA Publication Manual (Edition).
4. Please adhere to the following format(s):

Include three hard copies of the manuscript and one copy on a 3.5 diskette using Microsoft Word version 5 or 6, with a minimum of 12 point font; or Wordperfect with one copy saved as "normal" and one saved "without line breaks" (for conversion purposes). If the article is published we will need a diskette.

5. Include on a separate cover sheet:

Names of all authors. Name and address of your school. Name, phone, address (if other than your school) of your advisor for this project. Name, current phone, current address of primary author where you can be reached at all times. PLEASE INDICATE EMAIL ADDRESS

6. Include a sponsoring statement from your faculty advisor. (Advisors: please read and critique papers based on content, methods, APA style, grammar, and overall presentation. Your recommendation letter should be an indication that you approve and recommend this work on all counts listed above.)

7. Send submissions to:
