

**MAT 260 LINEAR ALGEBRA
HOMEWORK 7**

WING HONG TONY WONG

When you work on these homework problems, please do not simply write down the numerical answers, but also the **step-by-step deduction** for each problem. When I grade your quizzes, tests and final exam, your step-by-step deduction will take up an important proportion of your final scores.

Problems that may need to be submitted or may appear in the quiz:

2.1 3a,b, 11, 18, 21, 31, 38.

2.2 14, 27, 29, 30, 34.

2.3 19, 27, 33.
